SUMMARY

A dedicated and highly skilled General Dentist with 9 years of extensive clinical practice experience and a recent degree from an International Dental Program. This unique background allows me to combine strong diagnostic accuracy and sharp clinical judgment with a solid foundation in comprehensive oral care. As a highly trainable professional, I am eager to adapt to new practice environments and master modern dental technologies. For me, dentistry is more than a profession—it is truly my hobby—and brings that passion to a broad clinical scope that includes complex restorative care, periodontology, and oral surgery, ensuring patients receive comprehensive care and feel entirely at ease.
